

MUNDOVAL FUND

STATEMENT OF ADDITIONAL INFORMATION

May 1, 2018

This Statement of Additional Information ("SAI") is not a prospectus. It should be read in conjunction with the Prospectus of the Mundoval Fund dated May 1, 2018. The Fund's Annual Report to Shareholders, dated December 31, 2017, has been incorporated by reference into this SAI. A free copy of the Prospectus can be obtained by writing the Transfer Agent at 8000 Town Centre Drive, Suite 400, Broadview Heights, Ohio 44147 or by calling (800) 595-2877.

DESCRIPTION OF THE TRUST AND THE FUND

The Mundoval Fund (the "Fund") was organized as a series of Mundoval Funds (the "Trust"), on September 3, 2004. The Trust is an open-end investment company established under the laws of Ohio by an Agreement and Declaration of Trust dated March 24, 2004 (the "Trust Agreement"). The Trust Agreement permits the Trustees to issue an unlimited number of shares of beneficial interest of separate series without par value. The Mundoval Fund is currently the only series authorized by the Trustees. The investment adviser to the Fund is Mundoval Capital Management, Inc. (the "Adviser"), formerly known as A.Q. Johnson & Co., Inc.

The Fund does not issue share certificates. All shares are held in non-certificate form registered on the books of the Fund and the Fund's transfer agent for the account of the shareholder. Each share of a series represents an equal proportionate interest in the assets and liabilities belonging to that series with each other share of that series and is entitled to such dividends and distributions out of income belonging to the series as are declared by the Trustees. The shares do not have cumulative voting rights or any preemptive or conversion rights, and the Trustees have the authority from time to time to divide or combine the shares of any series into a greater or lesser number of shares of that series so long as the proportionate beneficial interest in the assets belonging to that series and the rights of shares of any other series are in no way affected. In case of any liquidation of a series, the holders of shares of the series being liquidated will be entitled to receive as a class a distribution out of the assets, net of the liabilities, belonging to that series. Expenses attributable to any series are borne by that series. Any general expenses of the Trust not readily identifiable as belonging to a particular series are allocated by or under the direction of the Trustees in such manner as the Trustees determine to be fair and equitable. No shareholder is liable to further calls or to assessment by the Trust without his or her express consent.

For information concerning the purchase and redemption of shares of the Fund, see "How to Buy Shares and Sell Shares" in the Prospectus. For a description of the methods used to determine the share price and value of the Fund's assets, see "Determination of Net Asset Value" in the Prospectus and "Pricing of Fund Shares" in this Statement of Additional Information.

ADDITIONAL INFORMATION ABOUT FUND INVESTMENTS AND RISK CONSIDERATIONS

This section contains a discussion of some of the investments the Fund may make and some of the techniques it may use.

A. Equity Securities. The Fund may invest in equity securities such as common stock, preferred stock, convertible securities, rights and warrants. Common stocks, the most familiar type, represent an equity (ownership) interest in a corporation. Warrants are options to purchase equity securities at a specified price for a specific time period. Rights are similar to warrants, but normally have a short duration and are distributed by the issuer to its shareholders. Although equity securities have a history of long term growth in value, their prices fluctuate based on changes in a company's financial condition and on overall market and economic conditions.

Equity securities also include SPDRs (S&P Depositary Receipts, known as "Spiders"), DIAMONDS, QQQs and a number of other exchange traded funds ("ETFs"). SPDRs represent ownership in the SPDR S&P 500 ETF Trust, a unit investment trust that holds a portfolio of common stocks that closely tracks the price performance and dividend yield of the S&P 500 Composite Price Index. SPDRs trade on the NYSE under the symbol "SPY." DIAMONDS represent ownership in the SPDR Dow Jones Industrial Average ETF Trust, a unit investment trust that serves as an index to the Dow Jones Industrial Average (the "Dow") in that its holdings consists of the 30 component stocks of the Dow. DIAMONDS trade on the NYSE under the symbol "DIA." QQQs (NASDAQ-100 Index Tracking Stock) represent ownership in the PowerShares QQQ Index Tracking Trust, a unit investment trust that attempts to closely track the price and yield performance of the NASDAQ 100 Index by holding shares of all the companies in the Index. QQQs are listed on The NASDAQ Stock Market, Inc. under the symbol "QQQ." The Fund may also invest in a variety of other exchange traded funds. To the extent the Fund invests in a sector product, the Fund is subject to the risks associated with that sector. Additionally, the Fund may invest in new exchange traded shares as they become available. When the Fund invests in ETFs or other investment companies, it will indirectly bear its proportionate share of any fees and expenses payable directly by the investment company.

B. Foreign Securities. The Fund may invest in foreign equity securities including American Depositary Receipts (“ADRs”) and ETFs that hold foreign securities. ADRs are certificates evidencing ownership of shares of a foreign-based issuer held in trust by a bank or similar financial institution. They are alternatives to the direct purchase of the underlying securities in their national markets and currencies. ADRs are subject to risks similar to those associated with direct investment in foreign securities.

Foreign investments can involve significant risks in addition to the risks inherent in U.S. investments. The value of securities denominated in or indexed to foreign currencies, and of dividends and interest from such securities, can change significantly when foreign currencies strengthen or weaken relative to the U.S. dollar. Foreign securities markets generally have less trading volume and less liquidity than U.S. markets, and prices on some foreign markets can be highly volatile. Many foreign countries lack uniform accounting and disclosure standards comparable to those applicable to U.S. companies, and it may be more difficult to obtain reliable information regarding an issuer’s financial condition and operations. In addition, the costs of foreign investing, including withholding taxes, brokerage commissions, and custodial costs, generally are higher than for U.S. investments.

Foreign markets may offer less protection to investors than U.S. markets. Foreign issuers, brokers, and securities markets may be subject to less government supervision. Foreign security trading practices, including those involving the release of assets in advance of payment, may invoke increased risks in the event of a failed trade or the insolvency of a broker-dealer, and may involve substantial delays. It also may be difficult to enforce legal rights in foreign countries.

Investing abroad also involves different political and economic risks. Foreign investments may be affected by actions of foreign governments adverse to the interests of U.S. investors, including the possibility of expropriation or nationalization of assets, confiscatory taxation, restrictions on U.S. investment or on the ability to repatriate assets or convert currency into U.S. dollars, or other government intervention. There may be a greater possibility of default by foreign governments or foreign government-sponsored enterprises. Investments in foreign countries also involve a risk of local political, economic or social instability, military action or unrest, or adverse diplomatic developments. There is no assurance that an adviser will be able to anticipate or counter these potential events and their impacts on the Fund’s share price.

The considerations noted above generally are intensified for investments in developing countries. Developing countries may have relatively unstable governments, economies based on only a few industries and securities markets that trade a small number of securities.

C. Short Sales. The Fund may sell a security short in anticipation of a decline in the market value of the security. When the Fund engages in a short sale, it sells a security which it does not own. To complete the transaction, the Fund must borrow the security in order to deliver it to the buyer. The Fund must replace the borrowed security by purchasing it at the market price at the time of replacement, which may be more or less than the price at which the Fund sold the security. The Fund will incur a loss as a result of the short sale if the price of the security increases between the date of the short sale and the date on which the Fund replaces the borrowed security. The Fund will realize a profit if the security declines in price between those dates. Any potential gain is limited to the price at which the Fund sold the security short, and any potential loss is unlimited in size.

In connection with its short sales, the Fund will be required to maintain a segregated account with the Fund's custodian of cash or high grade liquid assets equal to (i) the current market value of the securities sold short, less (ii) any collateral deposited with its broker (not including the proceeds from the short sales). Depending on arrangements made with the broker or custodian, the Fund may not receive any payments (including interest) on collateral deposited with the broker or custodian.

The Fund may also sell short “against the box”. Short sales “against the box” are short sales of securities that a fund owns or has the right to obtain (equivalent in kind or amount to the securities sold short). If the Fund enters into a short sale against the box, it will be required to set aside securities equivalent in kind and amount to the securities sold short (or securities convertible or exchangeable into such securities) and will be required to hold such securities while the short sale is outstanding. The Fund will incur transaction costs, including interest expenses, in connection with opening, maintaining, and closing short sales against the box.

D. Securities Lending. The Fund may make long and short term loans of its portfolio securities to parties such as broker-dealers, banks, or institutional investors. Securities lending allows a Fund to retain ownership of the securities loaned and, at the same time, to earn additional income. Since there may be delays in the recovery of loaned securities, or even a loss of rights in collateral supplied, should the borrower fail financially, loans will be made only to parties whose creditworthiness has been reviewed and deemed satisfactory by the Adviser. Furthermore, they will only be made if, in the judgment of the Adviser, the consideration to be earned from such loans would justify the risk.

The Adviser understands that it is the current view of the staff of the Securities and Exchange Commission (the "SEC") that a Fund may engage in loan transactions only under the following conditions: (1) a Fund must receive 100% collateral in the form of cash, cash equivalents (e.g., U.S. Treasury bills or notes) or other high grade liquid debt instruments from the borrower; (2) the borrower must increase the collateral whenever the market value of the securities loaned (determined on a daily basis) rises above the value of the collateral; (3) after giving notice, the Fund must be able to terminate the loan at any time; (4) the Fund must receive reasonable interest on the loan or a flat fee from the borrower, as well as amounts equivalent to any dividends, interest, or other distributions on the securities loaned and to any increase in market value; (5) the Fund may pay only reasonable custodian fees in connection with the loan; and (6) the Board of Trustees must be able to vote proxies on the securities loaned, either by terminating the loan or by entering into an alternative arrangement with the borrower.

Cash received through loan transactions may be invested in any security in which the Fund is authorized to invest. Investing this cash subjects that investment, as well as the security loaned, to market forces (i.e., capital appreciation or depreciation).

E. Restricted and Illiquid Securities. The portfolio of the Fund may contain illiquid securities. Illiquid securities generally include securities which cannot be disposed of promptly and in the ordinary course of business without taking a reduced price. Securities may be illiquid due to contractual or legal restrictions on resale or lack of a ready market. The following securities are considered to be illiquid: repurchase agreements and reverse repurchase agreements maturing in more than seven days, non-publicly offered securities and restricted securities. Restricted securities are securities the resale of which is subject to legal or contractual restrictions. Restricted securities may be sold only in privately negotiated transactions, in a public offering with respect to which a registration statement is in effect under the Securities Act of 1933 or pursuant to Rule 144 or Rule 144A promulgated under such Act. Where registration is required, the Fund may be obligated to pay all or part of the registration expense, and a considerable period may elapse between the time of the decision to sell and the time such security may be sold under an effective registration statement. If during such a period adverse market conditions were to develop, a Fund might obtain a less favorable price than the price it could have obtained when it decided to sell. The Fund will not invest more than 15% of its net assets in illiquid securities.

With respect to Rule 144A securities, these restricted securities are treated as exempt from the 15% limit on illiquid securities, provided that a dealer or institutional trading market in such securities exists. The Fund will not, however, invest more than 10% of its net assets in Rule 144A securities. Under the supervision of the Board of Trustees, the Adviser determines the liquidity of restricted securities and, through reports from the Adviser, the Board of Trustees will monitor trading activity in restricted securities. If institutional trading in restricted securities were to decline, the liquidity of a Fund could be adversely affected.

F. U.S. Government Securities. U.S. government securities are high-quality debt securities issued or guaranteed by the U.S. Treasury or by an agency or instrumentality of the U.S. government. Not all U.S. government securities are backed by the full faith and credit of, or guaranteed by, the United States Treasury. For example, securities issued by the Farm Credit Banks or by the Federal National Mortgage Association ("Fannie Mae") are supported by the instrumentality's right to borrow money from the U.S. Treasury under certain circumstances. However, securities issued by other agencies or instrumentalities such as the Federal Home Loan Mortgage Corporation ("Freddie Mac") are supported only by the credit of the entity that issued them. On September 7, 2008, the U.S. Treasury Department and the Federal Housing Finance Authority (the "FHFA") announced that Fannie Mae and Freddie Mac had been placed into conservatorship, a statutory process designed to stabilize a troubled institution with the objective of returning the entity to normal business operations. The U.S. Treasury Department and the FHFA at the same time established a secured lending facility and a Secured Stock Purchase Agreement with both Fannie Mae and Freddie Mac to ensure that each entity had the ability to fulfill its financial obligations. The FHFA announced that it does not anticipate any disruption in pattern of payments or ongoing business operations of Fannie Mae or Freddie Mac.

G. Corporate Debt Securities. Corporate debt securities are long and short term debt obligations issued by companies (such as publicly issued and privately placed bonds, notes and commercial paper). The Adviser considers corporate debt securities to be of investment grade quality if they are rated BBB or higher by S&P or Baa or higher by Moody's, or if unrated, determined by the Adviser to be of comparable quality. Investment grade debt securities generally have adequate to strong protection of principal and interest payments. In the lower end of this category, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal than in higher rated categories.

H. Fixed Income Securities. The Fund may invest in all types of fixed income securities, including when-issued, delayed delivery, or forward commitment basis. Fixed income securities are subject to credit risk and interest rate risk. Credit risk is the risk that the Fund could lose money if an issuer of a fixed income security cannot meet its financial obligations or goes bankrupt. Interest rate risk is the risk that the Fund's investments in fixed income securities may fall when interest rates rise.

Investments in high-yield bonds are considered to be more speculative than higher quality fixed income securities. They are more susceptible to credit risk than investment-grade securities, especially during periods of economic uncertainty or economic downturns. The value of lower quality securities are subject to greater volatility and are generally more dependent on the ability of the issuer to meet interest and principal payments than higher quality securities. Issuers of high-yield securities may not be as strong financially as those issuing bonds with higher credit ratings.

I. Financial Services Industry Obligations. The Fund may invest in each of the following obligations of the financial services industry:

(1) Certificate of Deposit. Certificates of deposit are negotiable certificates evidencing the indebtedness of a commercial bank or a savings and loan association to repay funds deposited with it for a definite period of time (usually from fourteen days to one year) at a stated or variable interest rate.

(2) Time Deposits. Time deposits are non-negotiable deposits maintained in a banking institution or a savings and loan association for a specified period of time at a stated interest rate.

(3) Bankers' Acceptances. Bankers' acceptances are credit instruments evidencing the obligation of a bank to pay a draft which has been drawn on it by a customer, which instruments reflect the obligation both of the bank and of the drawer to pay the face amount of the instrument upon maturity.

J. Repurchase Agreements. The Fund may invest in repurchase agreements fully collateralized by obligations issued by the U.S. government or agencies of the U.S. government ("U.S. Government Obligations"). A repurchase agreement is a short term investment in which the purchaser (i.e., a Fund) acquires ownership of a U.S. Government Obligation (which may be of any maturity) and the seller agrees to repurchase the obligation at a future time at a set price, thereby determining the yield during the purchaser's holding period (usually not more than 7 days from the date of purchase). Any repurchase transaction in which a Fund engages will require full collateralization of the seller's obligation during the entire term of the repurchase agreement. In the event of a bankruptcy or other default of the seller, a Fund could experience both delays in liquidating the underlying security and losses in value. However, the Fund intends to enter into repurchase agreements only with the custodian, other banks with assets of \$1 billion or more and registered securities dealers determined by the Adviser to be creditworthy. The Adviser monitors the creditworthiness of the banks and securities dealers with which a Fund engages in repurchase transactions.

K. Borrowing. The Fund is permitted to borrow money up to one-third of the value of its total assets. Borrowing for the purpose of investment is a speculative technique that increases both investment opportunity and a Fund's ability to achieve greater diversification. However, it also increases investment risk. Because the Fund's investments will fluctuate in value, whereas the interest obligations on borrowed funds may be fixed, during times of borrowing, the Fund's net asset value may tend to increase more when its investments increase in value, and decrease more when its investments decrease in value. In addition, interest costs on borrowings may fluctuate with changing market interest rates and may partially offset or exceed the return earned on the borrowed funds. Also, during times of borrowing under

adverse market conditions, the Fund might have to sell portfolio securities to meet interest or principal payments at a time when fundamental investment considerations would not favor such sales.

L. Options Transactions. The Fund may engage in option transactions involving individual securities and stock indexes. An option involves either: (a) the right or the obligation to buy or sell a specific instrument at a specific price until the expiration date of the option; or (b) the right to receive payments or the obligation to make payments representing the difference between the closing price of a stock index and the exercise price of the option expressed in dollars times a specified multiple until the expiration date of the option. Options are sold (written) on securities and stock indexes. The purchaser of an option on a security pays the seller (the writer) a premium for the right granted but is not obligated to buy or sell the underlying security. The purchaser of an option on a stock index pays the seller a premium for the right granted, and in return the seller of such an option is obligated to make the payment. A writer of an option may terminate the obligation prior to expiration of the option by making an offsetting purchase of an identical option. Options are traded on organized exchanges and in the over-the-counter market. To cover the potential obligations involved in writing options, a Fund will either: (a) own the underlying security, or in the case of an option on a market index, will hold a portfolio of stocks substantially replicating the movement of the index; or (b) the Fund will segregate with the custodian high grade liquid assets sufficient to purchase the underlying security or equal to the market value of the stock index option, marked to market daily.

The purchase and writing of options requires additional skills and techniques beyond normal portfolio management, and involves certain risks. The purchase of options limits a Fund's potential loss to the amount of the premium paid and can afford the Fund the opportunity to profit from favorable movements in the price of an underlying security to a greater extent than if transactions were effected in the security directly. However, the purchase of an option could result in the Fund losing a greater percentage of its investment than if the transaction were effected directly. When the Fund writes a call option, it will receive a premium, but it will give up the opportunity to profit from a price increase in the underlying security above the exercise price as long as its obligation as a writer continues, and it will retain the risk of loss should the price of the security decline. When the Fund writes a put option, it will assume the risk that the price of the underlying security or instrument will fall below the exercise price, in which case the Fund may be required to purchase the security or instrument at a higher price than the market price of the security or instrument. In addition, there can be no assurance that the Fund can effect a closing transaction on a particular option it has written. Further, the total premium paid for any option may be lost if the Fund does not exercise the option or, in the case of over-the-counter options, the writer does not perform its obligations.

M. Other Investment Companies. The Fund may purchase securities of open-end or closed-end investment companies if the purchase is in compliance with the 1940 Act. If the Fund invests in securities of other investment companies, the return of any such investment will be reduced by the operating expenses, including investment advisory and administrative fees, of such investment companies. However, the Adviser believes that at times the return and liquidity features of these securities will be more beneficial than other types of securities.

INVESTMENT LIMITATIONS

Fundamental. The investment limitations described below have been adopted by the Trust with respect to the Fund and are fundamental ("Fundamental"), i.e, they may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund. As used in the Prospectus and the Statement of Additional Information, the term "majority" of the outstanding shares of the Fund means the lesser of: (1) 67% or more of the outstanding shares of the Fund present at a meeting, if the holders of more than 50% of the outstanding shares of the Fund are present or represented at such meeting; or (2) more than 50% of the outstanding shares of the Fund. Other investment practices which may be changed by the Board of Trustees without the approval of shareholders to the extent permitted by applicable law, regulation or regulatory policy are considered non-fundamental ("Non-Fundamental").

1. Borrowing Money. The Fund will not borrow money, except: (a) from a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) from a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund's total assets at the time when the borrowing is made. This limitation does not preclude the Fund from entering into reverse repurchase transactions, provided that the Fund has an asset coverage of 300% for all borrowings and repurchase commitments of the Fund pursuant to reverse repurchase transactions.

2. Senior Securities. The Fund will not issue senior securities. This limitation is not applicable to activities that may be deemed to involve the issuance or sale of a senior security by the Fund, provided that the Fund's engagement in such activities is consistent with or permitted by the Investment Company Act of 1940, as amended (The "1940 Act"), the rules and regulations promulgated thereunder or interpretations of the SEC or its staff.

3. Underwriting. The Fund will not act as underwriter of securities issued by other persons. This limitation is not applicable to the extent that, in connection with the disposition of portfolio securities (including restricted securities), a Fund may be deemed an underwriter under certain federal securities laws.

4. Real Estate. The Fund will not purchase or sell real estate. This limitation is not applicable to investments in marketable securities which are secured by or represent interests in real estate. This limitation does not preclude the Fund from investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including real estate investment trusts).

5. Commodities. The Fund will not purchase or sell commodities unless acquired as a result of ownership of securities or other investments. This limitation does not preclude the Fund from purchasing or selling options or futures contracts, from investing in securities or other instruments backed by commodities or from investing in companies which are engaged in a commodities business or have a significant portion of their assets in commodities.

6. Loans. The Fund will not make loans to other persons, except: (a) by loaning portfolio securities; (b) by engaging in repurchase agreements; or (c) by purchasing non publicly offered debt securities. For purposes of this limitation, the term "loans" shall not include the purchase of a portion of an issue of publicly distributed bonds, debentures or other securities.

7. Concentration. The Fund will not invest 25% or more of its total assets in a particular industry, or group of industries. This limitation is not applicable to investments in obligations issued or guaranteed by the U.S. government, its agencies and instrumentalities or repurchase agreements with respect thereto.

With respect to the percentages adopted by the Trust as maximum limitations on its investment policies and limitations, an excess above the fixed percentage will not be a violation of the policy or limitation unless the excess results immediately and directly from the acquisition of any security or the action taken. This exception does not apply to the borrowing policy set forth in paragraph 1 above.

Notwithstanding any of the foregoing limitations, any investment company, whether organized as a trust, association or corporation, or a personal holding company, may be merged or consolidated with or acquired by the Trust, provided that if such merger, consolidation or acquisition results in an investment in the securities of any issuer prohibited by said paragraphs, the Trust shall, within ninety days after the consummation of such merger, consolidation or acquisition, dispose of all of the securities of such issuer so acquired or such portion thereof as shall bring the total investment therein within the limitations imposed by said paragraphs above as of the date of consummation.

Non-Fundamental. The following limitations have been adopted by the Trust with respect to the Fund and are Non-Fundamental (see "Investment Limitations - Fundamental" above).

1. Pledging. The Fund will not mortgage, pledge, hypothecate or in any manner transfer, as security for indebtedness, any assets of the Fund except as may be necessary in connection with borrowings described in limitation (1) above. Margin deposits, security interests, liens and collateral arrangements with respect to transactions involving options, futures contracts, short sales and other permitted investments and techniques are not deemed to be a mortgage, pledge or hypothecation of assets for purposes of this limitation.

2. Borrowing. The Fund will not purchase any security while borrowings (including reverse repurchase agreements) representing more than 1/3 of its total assets are outstanding.

3. Margin Purchases. The Fund will not purchase securities or evidences of interest thereon on "margin." This limitation is not applicable to short term credit obtained by a Fund for the clearance of purchases and sales or redemption of securities, or to arrangements with respect to transactions involving options, futures contracts, short sales and other permitted investments and techniques.

4. Illiquid Investments. The Fund will not invest more than 15% of its net assets in securities for which there are legal or contractual restrictions on resale and other illiquid securities.

THE INVESTMENT ADVISER

The Adviser is Mundoval Capital Management, Inc., located at 7855 Ivanhoe Avenue, Suite 210, La Jolla, CA 92037. As the majority shareholder of the Adviser, Arthur Q. Johnson is regarded to control the Adviser for purposes of the 1940 Act.

Under the terms of the Management Agreement, the Adviser manages the investment portfolio of the Fund, subject to policies adopted by the Trust's Board of Trustees. Under the Management Agreement, the Adviser, at its own expense and without reimbursement from the Trust, furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the assets of the Fund. The Adviser also pays the salaries and fees of all of its officers and employees that serve as officers and trustees of the Trust. The Adviser pays all operating expenses of the Fund, with the exception of taxes, borrowing expenses (such as (a) interest and (b) dividend expenses on securities sold short), brokerage commissions, acquired fund fees and expenses and extraordinary expenses. For its services, the Adviser receives an annual investment management fee of 1.50% of the average daily net assets of the Fund. The Adviser has agreed to waive a portion of its management fee (the "Fee Waiver") so that the management fee, on an annual basis, does not exceed (i) 1.25% of the Fund's average daily net assets greater than \$25 million and up to and including \$75 million, and (ii) 1.00% of the Fund's average daily net assets greater than \$75 million. The Fee Waiver will automatically terminate on April 30, 2019 unless it is renewed by the Adviser. The Adviser may not terminate the Fee Waiver before April 30, 2019. For the fiscal year ended December 31, 2015, the Adviser earned management fees equal to \$314,717. For the fiscal year ended December 31, 2016, the Adviser earned management fees equal to \$285,068. For the fiscal year ended December 31, 2017, the Adviser earned management fees equal to \$336,858.

The Adviser retains the right to use the name "Mundoval" or any derivative thereof in connection with another investment company or business enterprise with which the Adviser is or may become associated. The Trust's right to use the name "Mundoval" or any derivative thereof automatically ceases ninety days after termination of the Agreement and may be withdrawn by the Adviser on ninety days written notice.

The Adviser may make payments to banks or other financial institutions that provide shareholder services and administer shareholder accounts. If a bank or other financial institution were prohibited from continuing to perform all or a part of such services, management of the Fund believes that there would be no material impact on the Fund or its shareholders. Financial institutions may charge their customers fees for offering these services to the extent permitted by applicable regulatory authorities, and the overall return to those shareholders availing themselves of the financial institution's services will be lower than to those shareholders who do not. The Fund may from time to time purchase securities issued by financial institutions that provide such services; however, in selecting investments for the Fund, no preference will be shown for such securities.

THE PORTFOLIO MANAGER

Mr. Arthur Q. Johnson is responsible for the day-to-day management of the Fund. Mr. Johnson also manages separate accounts for individuals, trusts, corporations, partnerships and retirement plans. The following provides information regarding other accounts managed by Mr. Johnson as of December 31, 2017:

Account Type	Number of Accounts by Account Type	Total Assets By Account Type	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee
Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	34	\$28.36 Million	0	\$0

The Portfolio Manager has not identified any material conflicts between the Fund and other accounts managed by the Portfolio Manager. However, actual or apparent conflicts of interest may arise in connection with the day-to-day management of the Fund and other accounts. The management of the Fund and other accounts may result in unequal time and attention being devoted to the Fund and other accounts. Another potential conflict of interest may arise where another account has the same investment objective as the Fund, whereby the Portfolio Manager could favor one account over another. Further, a potential conflict could include the Portfolio Manager's knowledge about the size, timing and possible market impact of Fund trades, whereby the Portfolio Manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. These potential conflicts of interest could create the appearance that the Portfolio Manager is favoring one investment vehicle over another.

Mr. Johnson owns all the outstanding shares of the Adviser and therefore his compensation is largely based on the profits realized by the Adviser for managing the Fund. He participates directly in all profits and losses of the Adviser, including the advisory fees paid by the Fund. There are no bonuses, deferred compensation or retirement plans associated with his service to the Fund.

The following table shows the dollar range of equity securities beneficially owned by the Portfolio Manager in the Fund as of December 31, 2017.

Name of Portfolio Manager	Dollar Range of Equity Securities in the Fund
Mr. Arthur Q. Johnson	Over \$1,000,000

TRUSTEES AND OFFICERS

The Board of Trustees supervises the business activities of the Trust. Each Trustee serves as a trustee until the termination of the Trust unless the Trustee dies, resigns, retires or is removed.

The Board has engaged the Adviser to manage and/or administer the Trust and is responsible for overseeing the Adviser and other service providers to the Trust and the Fund. The Board is currently composed of four Trustees, including three Trustees who are not "interested persons" of the Fund, as that term is defined in the 1940 Act (each an "Independent Trustee"). In addition to four regularly scheduled meetings per year, the Board holds special meetings or informal conference calls to discuss specific matters that may require action prior to the next regular meeting. The Board of Trustees has established an Audit Committee comprised entirely of Trustees who are Independent Trustees. The Audit Committee is generally responsible for (i) overseeing and monitoring the Trust's internal accounting and control structure, its auditing function and its financial reporting process, (ii) selecting and recommending to the full Board of Trustees the appointment of auditors for the Trust, (iii) reviewing audit plans, fees, and other material arrangements with respect to the engagement of auditors, including permissible non-audit services performed; (iv) reviewing the qualifications of the auditor's key personnel involved in the foregoing activities and (v) monitoring the auditor's independence.

The Chairman of the Board of Trustees is Mr. Arthur Q. Johnson, who is an "interested person" of the Trust, within the meaning of the 1940 Act, on the basis of his affiliation with the Fund and the Adviser. The Trust does not have a "lead" independent trustee. The use of an interested Chairman balanced by an independent Audit Committee allows the Board to access the expertise necessary to oversee the Trust, identify risks, recognize shareholder concerns and needs and highlight opportunities. The Audit Committee is able to focus Board time and attention to matters of interest to shareholders and through its private sessions with the Trust's auditor, Chief Compliance Officer and legal counsel, stay fully informed regarding management decisions. Considering the size of the Trust and its shareholder base, the Trustees have determined that an interested Chairman balanced by an independent Audit Committee is the appropriate leadership structure for the Board of Trustees.

Mutual funds face a number of risks, including investment risk, compliance risk and valuation risk. The Board oversees management of the Fund's risks directly and through its officers. While day-to-day risk management responsibilities rest with the Fund's Chief Compliance Officer, investment adviser and other service providers, the Board monitors and tracks risk by: (1) receiving and reviewing quarterly reports related to the performance and operations of the Funds; (2) reviewing and approving, as applicable, the compliance policies and procedures of the Trust, including the Trust's valuation policies and transaction procedures; (3) periodically meeting with the portfolio

manager to review investment strategies, techniques and related risks; (4) meeting with representatives of key service providers, including the Fund's investment adviser, administrator, transfer agent, the custodian and the independent registered public accounting firm, to discuss the activities of the Funds; (5) engaging the services of the Chief Compliance Officer of the Fund to test the compliance procedures of the Trust and its service providers; (6) receiving and reviewing reports from the Trust's independent registered public accounting firm regarding the Fund's financial condition and the Trust's internal controls; and (7) receiving and reviewing an annual written report prepared by the Chief Compliance Officer reviewing the adequacy of the Trust's compliance policies and procedures and the effectiveness of their implementation. The Board has concluded that its general oversight of the investment adviser and other service providers as implemented through the reporting and monitoring process outlined above allows the Board to effectively administer its risk oversight function.

Each Trustee was nominated to serve on the Board of Trustees based on their particular experiences, qualifications, attributes and skills. The characteristics that have led the Board to conclude that each of the Trustees should continue to serve as a Trustee of the Trust are discussed below.

Arthur Q. Johnson. Mr. Johnson has served as a Chairman of the Board of Trustee since the Trust's inception in 2004. Mr. Johnson is President of Mundoval Capital Management, Inc., the Fund's investment adviser, and has worked in the investment management industry since 1986. Mr. Johnson brings operational, investment management and marketing knowledge to the Board of Trustees.

Martha G. Dennis, PhD. Dr. Dennis has served as a Trustee since July 2013. Dr. Dennis has significant experience in serving in directorship positions for a number of for-profit and nonprofit organizations. Dr. Dennis is a Principal of Gordian Knot, an advisory firm to emerging technology businesses. She provides valued leadership skills and knowledge of business operations. She also brings a diversity of gender, viewpoints and experiences to the Board of Trustees.

Paul J. Dostart. Mr. Dostart has served as a Trustee since May 2014. Mr. Dostart has been engaged in the practice of law for over 35 years and is the Managing Partner of the Dostart Hannink & Coveney LLP law firm. His practice includes a focus on tax law, corporate governance and other general corporate matters. He is a Fellow of the American College of Tax Counsel, a Diplomat of the Board of Forensic Accounting and is registered as a Certified Public Accountant in the State of Illinois. Mr. Dostart brings substantial corporate governance experience and financial reporting skills to the Board of Trustees.

Selwyn Isakow. Mr. Isakow has served as a Trustee since February 2012. Mr. Isakow is Founder, Chairman and Chief Executive Officer of The Oxford Investment Group, Inc., and the Chairman of San Diego Private Bank. Mr. Isakow is a qualified Chartered Accountant. Mr. Isakow brings budgeting and financial reporting skills to the Board of Trustees. Mr. Isakow serves as Chairman of the Trust's Audit Committee.

The following table provides information regarding each Trustee who is an "interested person" of the Trust, as defined in the Investment Company Act of 1940, and each officer of the Trust.

Interested Trustees and Officers

Name, Address ⁽¹⁾ , and Age	Position with the Trust	Term of Office and Length of Time Served	Principal Occupation(s) During Past 5 Years	Number of Portfolios Overseen By Trustee	Other Directorships Held By Trustee During Past 5 Years
Arthur Q. Johnson ⁽²⁾ , Year of Birth: 1961	President, Secretary, Treasurer, and Trustee	Indefinite Term, Since 2004	President of Mundoval Capital Management, Inc. (2002 – current).	1	None
Natalie M. Gumina Year of Birth: 1982	Chief Compliance Officer	Indefinite Term, Since 2006	Chief Operating Officer and Investment Advisory Representative of Mundoval Capital Management, Inc. (August 2006 - current).	N/A	N/A

⁽¹⁾ The address of each trustee and officer is c/o Mundoval Funds, 7855 Ivanhoe Avenue, Suite 210, La Jolla, CA 92037.

⁽²⁾ Arthur Q. Johnson is considered an "interested person" as defined in Section 2(a)(19) of the Investment Company Act of 1940 by virtue of his affiliation with the Adviser.

The following table provides information regarding each Trustee who is not an "interested person" of the Trust, as defined in the Investment Company Act of 1940.

Independent Trustees

Name, Address ⁽¹⁾ , and Age	Position with the Trust	Term of Office and Length of Time Served	Principal Occupation(s) During Past 5 Years	Number of Portfolios Overseen By Trustee	Other Directorships Held By Trustee During Past 5 Years
Martha G. Dennis, Year of Birth: 1942	Trustee	Indefinite Term, Since July 2013	Principal, Gordian Knot (2005 – current).	1	None
Paul J. Dostart, Year of Birth: 1951	Trustee	Indefinite Term, Since May 2014	Managing Partner of Dostart Hannink & Coveney LLP (1996 – current).	1	None
Selwyn Isakow, Year of Birth: 1952	Trustee	Indefinite Term, Since February, 2012	Chairman & CEO, The Oxford Investment Group, Inc. (1985 – current). Chairman, San Diego Private Bank (2006 – current). Chairman, Private Bancorp of America, Inc. (2015 – current).	1	None

⁽¹⁾ The address of each trustees and officer is c/o Mundoval Funds, 7855 Ivanhoe Avenue, Suite 210, La Jolla, CA 92037.

BOARD INTEREST IN THE TRUST

As of December 31, 2017, the Trustees owned the following amounts in the Trust:

Name of Trustee	Dollar Range of Securities In The Mundoval Fund	Aggregate Dollar Range of Securities In Trust
Arthur Q. Johnson	Over \$100,000	Over \$100,000
Martha G. Dennis	\$10,001-\$50,000	\$10,001-\$50,000
Paul J. Dostart	\$1 - \$10,000	\$1 - \$10,000
Selwyn Isakow	Over \$100,000	Over \$100,000

AUDIT COMMITTEE

The Audit Committee is responsible for advising the full Board with respect to accounting, auditing and financial matters affecting the Trust and meets at least once annually. The Audit Committee is comprised of Independent Trustees. The Audit Committee met two times during the fiscal year ended December 31, 2017.

COMPENSATION

Trustee fees are paid by the Adviser. Officers and Trustees of the Fund who are deemed "interested persons" of the Trust receive no compensation from the Fund. The following table provides information regarding Trustee compensation for the fiscal year ended December 31, 2017.

Name	Aggregate Compensation from Trust	Total Compensation from Trust
Arthur Q. Johnson	\$0	\$0
Paul J. Dostart	\$1,500	\$1,500
Martha G. Dennis	\$1,500	\$1,500
Selwyn Isakow	\$1,500	\$1,500

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding shares of any of the Funds. A control person is one who owns, either directly or indirectly, more than 25% of the voting securities of a company or acknowledges the existence of such control. A controlling shareholder could control the outcome of any proposal submitted to the shareholders for approval, including changes to the Fund's fundamental policies or the terms of the management agreement with the Adviser. As of April 3, 2018 each of the following shareholders was considered to be a principal shareholder of the Fund and Arthur Q. Johnson may be deemed to control the Fund.

Name and Address	Shares	Percent Ownership	Type of Ownership
Arthur Q. Johnson 6010 Folsom Drive La Jolla, CA 92037	742,872.43	55.29%	Beneficially
Charles Schwab & Co., Inc. FBO Customers 101 Montgomery St. San Francisco, CA 94104-4122	259,588.33	19.32%	Record

As of April 3, 2018 the trustees and officers as a group owned 57.12% of the outstanding shares of the Fund.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Subject to policies established by the Board of Trustees, the Adviser is responsible for the Fund's portfolio decisions and the placing of the Fund's portfolio transactions. In placing portfolio transactions, the Adviser seeks the best qualitative execution for the Fund, taking into account such factors as price (including the applicable brokerage commission or dealer spread), the execution capability, financial responsibility and responsiveness of the broker or dealer and the brokerage and research services provided by the broker or dealer. The Adviser generally seeks favorable prices and commission rates that are reasonable in relation to the benefits received. The Adviser may not give consideration to sales of shares of the Trust as a factor in the selection of brokers and dealers to execute portfolio transactions. However, the Adviser may place portfolio transactions with brokers or dealers that promote or sell the Fund's shares so long as such placements are made pursuant to policies approved by the Fund's Board of Trustees that are designed to ensure that the selection is based on the quality of the broker's execution and not on its sales efforts. For the fiscal year ended December 31, 2015, the Fund paid brokerage commissions of \$2,118. For the fiscal year ended December 31, 2016, the Fund paid brokerage commissions of \$2,794. For the fiscal year ended December 31, 2017, the Fund paid brokerage commissions of \$2,055.

The Adviser is specifically authorized to select brokers or dealers who also provide brokerage and research services to the Fund and/or the other accounts over which the Adviser exercises investment discretion and to pay such brokers or dealers a commission in excess of the commission another broker or dealer would charge if the Adviser determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services provided. The determination may be viewed in terms of a particular transaction or the Adviser's overall responsibilities with respect to the Trust and to other accounts over which it exercises investment discretion.

Research services include supplemental research, securities and economic analyses, statistical services and information with respect to the availability of securities or purchasers or sellers of securities and analyses of reports concerning performance of accounts. The research services and other information furnished by brokers through whom the Fund effect securities transactions may also be used by the Adviser in servicing all of its accounts. Similarly, research and information provided by brokers or dealers serving other clients may be useful to the Adviser in connection with its services to the Fund. Although research services and other information are useful to the Fund and the Adviser, it is not possible to place a dollar value on the research and other information received. It is the opinion of the Board of Trustees and the Adviser that the review and study of the research and other information will not reduce the overall cost to the Adviser of performing its duties to the Fund under the Agreement. Due to research services provided by brokers, the Fund may direct trades to certain brokers.

Over-the-counter transactions will be placed either directly with principal market makers or with broker-dealers, if the same or a better price, including commissions and executions, is available. Fixed income securities are normally purchased directly from the issuer, an underwriter or a market maker. Purchases include a concession paid by the issuer to the underwriter and the purchase price paid to a market maker may include the spread between the bid and asked prices.

When the Fund and another of the Adviser's clients seek to purchase or sell the same security at or about the same time, the Adviser may execute the transaction on a combined ("blocked") basis. Blocked transactions can produce better execution for the Fund because of the increased volume of the transaction. If the entire blocked order is not filled, the Fund may not be able to acquire as large a position in such security as it desires or it may have to pay a higher price for the security. Similarly, the Fund may not be able to obtain as large an execution of an order to sell or as high a price for any particular portfolio security if the other client desires to sell the same portfolio security at the same time. In the event that the entire blocked order is not filled, the purchase or sale will normally be allocated on a pro rata basis. The allocation may be adjusted by the Adviser, taking into account such factors as the size of the individual orders and transaction costs, when the Adviser believes an adjustment is reasonable.

The Trust and the Adviser have each adopted a Code of Ethics (the "Code") under Rule 17j-1 of the Investment Company Act of 1940. The personnel subject to the Code are permitted to invest in securities, including securities that may be purchased or held by the Fund. You may obtain a copy of the Code from the SEC.

ADDITIONAL TAX INFORMATION

The following discussion of certain U.S. federal income tax consequences is general in nature and should not be regarded as an exhaustive presentation of all possible tax ramifications. Each shareholder should consult a qualified tax advisor regarding the tax consequences of an investment in the Fund. The tax considerations relevant to a specific shareholder depend upon the shareholder's specific circumstances, and the following general summary does not attempt to discuss all potential tax considerations that could be relevant to a prospective shareholder with respect to the Fund or its investments. This general summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), the U.S. federal income tax regulations promulgated thereunder, and administrative and judicial interpretations thereof as of the date hereof, all of which are subject to change (potentially on a retroactive basis).

The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Code, which requires compliance with certain requirements concerning the sources of its income, diversification of its assets, and the amount and timing of its distributions to shareholders. Such qualification does not involve supervision of management or investment practices or policies by any government agency or bureau. By so qualifying, the Fund should not be subject to federal income or excise tax on its net investment income or net realized capital gain, which are distributed to shareholders in accordance with the applicable timing requirements.

The Fund intends to distribute substantially all of its net investment income (including any excess of net short-term capital gains over net long-term capital losses) and net realized capital gain (that is, any excess of net long-term capital gains over net short-term capital losses) in accordance with the timing requirements imposed by the Code and therefore should not be required to pay any federal income or excise taxes. Net realized capital gain for a fiscal year is computed by taking into account any capital loss carryforward of the Fund.

To be treated as a regulated investment company under Subchapter M of the Code, the Fund must also (a) derive at least 90% of its gross income from dividends, interest, payments with respect to securities loans, net income from certain publicly traded partnerships and gains from the sale or other disposition of securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived with respect to the business of investing in such securities or currencies, and (b) diversify its holding so that, at the end of each fiscal quarter, (i) at least 50% of the market value of a Fund's assets is represented by cash, U.S. government securities and securities of other regulated investment companies, and other securities (for purposes of this calculation, generally limited in respect of any one issuer, to an amount not greater than 5% of the market value of a Fund's assets and 10% of the outstanding voting securities of such issuer) and (ii) not more than 25% of the value of its assets is invested in the securities (other than U.S. government securities or the securities of other regulated investment companies) of any one issuer, two or more issuers which a Fund controls and which are determined to be engaged in the same or similar trades or businesses, or the securities of certain publicly traded partnerships.

If a Fund fails to qualify as a regulated investment company under Subchapter M in any fiscal year, it may be treated as a corporation for federal income tax purposes. As such, a Fund would be required to pay income taxes on its net investment income and net realized capital gains, if any, at the rates generally applicable to corporations. Shareholders of a Fund generally would not be liable for income tax on a Fund's net investment income or net realized capital gains in their individual capacities. However, distributions to shareholders, whether from a Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of a Fund.

As a regulated investment company, a Fund is subject to a 4% nondeductible excise tax on certain undistributed amounts of ordinary income and net realized capital gain under a prescribed formula contained in Section 4982 of the Code. The formula requires payment to shareholders during a calendar year of distributions representing at least 98% of a Fund's ordinary income for the calendar year and at least 98.2% of its net realized capital gain (i.e., the excess of its capital gains over capital losses) realized during the one-year period ending October 31 during such year plus 100% of any income that was neither distributed nor taxed to a Fund during the preceding calendar year. Under ordinary circumstances, a Fund expects to time its distributions so as to avoid liability for this tax. The following discussion of U.S. federal income tax consequences is for the general information of shareholders that are subject to tax. Shareholders that are invested in IRAs or other qualified retirement plans are exempt from income taxation under the Code.

Distributions of taxable net investment income (including the excess of net short-term capital gain over net long-term realized capital loss) generally are taxable to shareholders as ordinary income. However, distributions by the Fund to a non-corporate shareholder may be subject to income tax at the shareholder's applicable tax rate for long-term capital gain, to the extent that the Fund receives qualified dividend income on the securities it holds, the Fund properly designates the distribution as qualified dividend income, and the Fund and the non-corporate shareholder receiving the distribution meets certain holding period and other requirements. Distributions of net realized capital gain ("capital gain dividends") generally are taxable to shareholders as long-term capital gain, regardless of the length of time the shares of the Trust have been held by such shareholders. Under current law, capital gain dividends recognized by a non-corporate shareholder generally will be taxed at a maximum income tax rate of 20%. Capital gains of corporate shareholders are taxed at the same rate as ordinary income.

Distributions of taxable net investment income and net realized capital gain will be taxable as described above, whether received in additional cash or shares. All distributions of taxable net investment income and net realized capital gain, whether received in shares or in cash, must be reported by each taxable shareholder on his or her federal income tax return. Dividends or distributions declared in October, November or December as of a record date in such a month, if any, will be deemed to have been received by shareholders on December 31, if paid during January of the following year. Redemptions of shares may result in tax consequences (gain or loss) to the shareholder and are also subject to these reporting requirements.

Redemption of Fund shares by a shareholder will result in the recognition of taxable gain or loss in an amount equal to the difference between the amount realized and the shareholder's tax basis in the shareholder's Fund shares. Such gain or loss is treated as a capital gain or loss if the shares are held as capital assets. However, any loss realized upon the redemption of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as capital gain dividends during such six-month period. All or a portion of any loss realized upon the redemption of shares may be disallowed to the extent shares are purchased (including shares acquired by means of reinvested dividends) within 30 days before or after such redemption.

Under the Code, a Fund will be required to report to the Internal Revenue Service all distributions of taxable income and net realized capital gains as well as gross proceeds from the redemption or exchange of Fund shares, except in the case of certain exempt shareholders. Under the backup withholding provisions of Section 3406 of the Code, distributions of taxable net investment income and net realized capital gain and proceeds from the redemption or exchange of the shares of a regulated investment company may be subject to withholding of federal income tax (currently, at a rate of 28%) in the case of non-exempt shareholders who fail to furnish the investment company with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law, or if a Fund is notified by the IRS or a broker that withholding is required due to an incorrect TIN or a previous failure to report taxable interest or dividends. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld.

For taxable years beginning after December 31, 2012, an additional 3.8% Medicare tax generally will be imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that any such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceeds certain threshold amounts.

Payments to a shareholder that is either a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Foreign Account Tax Compliance Act ("FATCA") may be subject to a generally nonrefundable 30% withholding tax on: (a) income dividends paid by a Fund after June 30, 2014 and (b) certain capital gain distributions and the proceeds arising from the sale of Fund shares paid by the Fund after December 31, 2016. FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. A Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be

required if a foreign entity that is a shareholder of a Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

Shareholders should consult their tax advisers about the application of federal, state, local and foreign tax law in light of their particular situation.

Should additional series, or funds, be created by the Trustees, each fund would be treated as a separate tax entity for federal income tax purposes.

DETERMINATION OF SHARE PRICE

The price (net asset value) of the shares of the Fund is determined at the close of trading (normally 4:00 p.m., Eastern time) on each day the New York Stock Exchange is open for business (the Exchange is closed on weekends, most federal holidays, and Good Friday). For a description of the methods used to determine the net asset value (share price), see "Determination of Net Asset Value" in the Prospectus.

Equity securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Adviser believes such prices accurately reflect the fair market value of such securities. Securities that are traded on any stock exchange or on the NASDAQ over-the-counter market are generally valued by the pricing service at the last quoted sale price. Lacking a last sale price, an equity security is generally valued by the pricing service at its last bid price. When market quotations are not readily available, when the Adviser determines that the market quotation or the price provided by the pricing service does not accurately reflect the current market value, or when restricted or illiquid securities are being valued, such securities are valued as determined in good faith by the Adviser, in conformity with guidelines adopted by and subject to review of the Board of Trustees of the Trust.

Fixed income securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Adviser believes such prices accurately reflect the fair market value of such securities. A pricing service utilizes electronic data processing techniques based on yield spreads relating to securities with similar characteristics to determine prices for normal institutional-size trading units of debt securities without regard to sale or bid prices. If the Adviser decides that a price provided by the pricing service does not accurately reflect the fair market value of the securities, when prices are not readily available from a pricing service, or when restricted or illiquid securities are being valued, securities are valued at fair value as determined in good faith by the Adviser, subject to review of the Board of Trustees. Short term investments in fixed income securities with maturities of less than 60 days when acquired, or which subsequently are within 60 days of maturity, may be valued by using the amortized cost method of valuation.

PURCHASES AND SALES THROUGH BROKER DEALERS

The Fund may be purchased through broker dealers and other intermediaries. The Fund has authorized one or more brokers to receive on its behalf purchase and redemption orders. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker's authorized designee, received the order. Customer orders will be priced at the Fund's net asset value next computed after they are received by an authorized broker or the broker's authorized designee.

ANTI-MONEY LAUNDERING PROGRAM

The Trust has established an Anti-Money Laundering Compliance Program (the "Program") as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act"). To ensure compliance with this law, the Trust's Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program.

Procedures to implement the Program include, but are not limited to, determining that the Fund's transfer agent has established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity and a complete

and thorough review of all new opening account applications. The Fund will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

CUSTODIAN

US Bank N.A., 425 Walnut Street, Cincinnati, Ohio 45202, is custodian of the Fund's investments. The custodian acts as the Fund's depository, safekeeps its portfolio securities, collects all income and other payments with respect thereto, disburses funds at the Fund's request and maintains records in connection with its duties.

FUND SERVICES

Mutual Shareholder Services, LLC ("MSS"), 8000 Town Centre Drive, Suite 400, Broadview Heights, Ohio 44147, acts as the Fund's transfer agent. MSS maintains the records of the shareholder's account, answers shareholders' inquiries concerning their accounts, processes purchases and redemptions of the Fund's shares, acts as dividend and distribution disbursing agent and performs other transfer agent and shareholder service functions. MSS receives an annual fee from the Adviser of \$11.50 per shareholder (subject to a minimum monthly fee of \$775 per Fund) for these transfer agency services.

In addition, MSS provides the Fund with fund accounting services, which includes certain monthly reports, record-keeping and other management-related services. For its services as fund accountant, MSS receives an annual fee from the Adviser based on the average value of the Fund. These fees are: from \$0 to \$25 million in assets the annual fee is \$21,000, from \$25 million to \$50 million in assets the annual fee is \$30,500, from \$50 million to \$75 million in assets the annual fee is \$36,250, from \$75 million to \$100 million in assets the annual fee is \$42,000, from \$100 million to \$125 million in assets the annual fee is \$47,750, from \$125 million to \$150 million in assets the annual fee is \$53,500, and for assets above \$150 million the annual fee is \$59,250. For the fiscal year ended December 31, 2015, the Adviser paid MSS \$30,300 for transfer agent and accounting services. For the fiscal year ended December 31, 2016, the Adviser paid MSS \$30,300 for transfer agent and accounting services. For the fiscal year ended December 31, 2017, the Adviser paid MSS \$30,300 for transfer agent and accounting services.

Premier Fund Solutions, Inc. ("PFS") provides the Fund with administrative services, including regulatory reporting and necessary office equipment, personnel and facilities. PFS receives a monthly fee from the Adviser equal to an annual rate of 0.07% of the Fund's assets under \$200 million, 0.05% of the next \$500 million of the Fund's average daily net assets, and 0.03% of the average daily net assets of the Fund thereafter (subject to a minimum monthly fee of \$2,000). For each of the fiscal years ended December 31, 2015, 2016 and 2017, the Adviser paid PFS \$24,000 for administrative services.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The firm of Cohen & Company, Ltd., 1350 Euclid Ave., Suite 800, Cleveland, OH 44115, has been selected as the independent registered public accounting firm for the Fund for the fiscal year ending December 31, 2018. Cohen & Company, Ltd. performs an annual audit of the Fund's financial statements and provides financial, tax and accounting consulting services as requested.

DISCLOSURE OF PORTFOLIO HOLDINGS

The Fund is required to include a schedule of portfolio holdings in its annual and semi-annual reports to shareholders, which are sent to shareholders within 60 days of the end of the second and fourth fiscal quarters and which are filed with the Securities and Exchange Commission (the "SEC") on Form N-CSR within 70 days of the end of the second and fourth fiscal quarters. The Fund also is required to file a schedule of portfolio holdings with the SEC on Form N-Q within 60 days of the end of the first and third fiscal quarters. The Fund must provide a copy of the complete schedule of portfolio holdings as filed with the SEC to any shareholder of the Fund, upon request, free of charge. This policy is applied uniformly to all shareholders of the Fund without regard to the type of requesting shareholder (i.e., regardless of whether the shareholder is an individual or institutional investor). Information contained in annual and semi-annual reports mailed to shareholders, as well as information filed with the SEC on Form N-Q and information posted on the Fund's website, is public information. All other information is non-public information.

The Fund has an ongoing relationship with third party servicing agents to release portfolio holdings information on a daily basis in order for those parties to perform their duties on behalf of the Fund. These third party servicing agents are the Adviser, Transfer Agent, Fund Accounting Agent, Administrator and Custodian. The Fund also may disclose portfolio holdings, as needed, to auditors, legal counsel, proxy voting services (if applicable), pricing services, printers, parties to merger and reorganization agreements and their agents, and prospective or newly hired investment advisers or sub-advisers. The Fund's Chief Compliance Officer must authorize all disclosures of portfolio holdings. The lag between the date of the information and the date on which the information is disclosed will vary based on the identity of the party to whom the information is disclosed. For instance, the information may be provided to auditors within days of the end of an annual period, while the information may be given to legal counsel or prospective sub-advisers at any time. This information is disclosed to all such third parties under conditions of confidentiality. "Conditions of confidentiality" include (i) confidentiality clauses in written agreements, (ii) confidentiality implied by the nature of the relationship (e.g., attorney-client relationship), (iii) confidentiality required by fiduciary or regulatory principles (e.g., custody relationships) or (iv) understandings or expectations between the parties that the information will be kept confidential. The Fund also releases information to Morningstar on a delayed basis after the information has been filed with the SEC or otherwise made public. The Fund believes, based upon its size and history, that these are reasonable procedures to protect the confidentiality of the Fund's portfolio holdings and will provide sufficient protection against personal trading based on the information.

The Fund is prohibited from entering into any arrangements with any person to make available information about the Fund's portfolio holdings without the specific approval of the Board. The Adviser must submit any proposed arrangement pursuant to which the Adviser intends to disclose the Fund's portfolio holdings to the Board, which will review such arrangement to determine (i) whether it is in the best interests of Fund shareholders, (ii) whether the information will be kept confidential and (iii) whether the disclosure presents a conflict of interest between the interests of Fund shareholders and those of the Adviser, or any affiliated person of the Fund, or the Adviser. Additionally, the Fund, the Adviser, and any affiliated persons of the Adviser, are prohibited from receiving compensation or other consideration, for themselves or on behalf of the Fund, as a result of disclosing the Fund's portfolio holdings.

FINANCIAL STATEMENTS

The financial statements and Report of Independent Registered Public Accounting Firm required to be included in the Statement of Additional Information are incorporated herein by reference to the Trust's Annual Report to Shareholders for the year ended December 31, 2017. The Trust will provide the Annual Report without charge at written or telephone request.

PROXY VOTING POLICIES

The Board of Trustees of the Trust has delegated responsibilities for decisions regarding proxy voting for securities held by the Fund to the Fund's Adviser. The Adviser will vote such proxies in accordance with its proxy policies and procedures. In some instances, the Adviser may be asked to cast a proxy vote that presents a conflict between the interests of the Fund's shareholders, and those of the Adviser or an affiliated person of the Adviser. In such a case, the Trust's policy requires that the Adviser abstain from making a voting decision and to forward all necessary proxy voting materials to the Trust to enable the Board of Trustees to make a voting decision. The adviser shall make a written recommendation of the voting decision to the Board of Trustees, which shall include: (i) an explanation of why it has a conflict of interest; (ii) the reasons for its recommendation; and (iii) an explanation of why the recommendation is consistent with the adviser's proxy voting policies. The Board of Trustees shall make the proxy voting decision that in its judgment, after reviewing the recommendation of the adviser, is most consistent with the adviser's proxy voting policies and in the best interests of Fund shareholders. When the Board of Trustees of the Trust is required to make a proxy voting decision, only the Trustees without a conflict of interest with regard to the security in question or the matter to be voted upon shall be permitted to participate in the decision of how the Fund's vote will be cast.

The Adviser's policies and procedures state that the Adviser generally relies on the individual portfolio manager(s) to make the final decision on how to cast proxy votes. When exercising its voting responsibilities, the Adviser's policies call for an emphasis on (i) accountability of management of the company to its board, and of the board to the company's shareholders, (ii) alignment of management and shareholder interests and (iii) transparency through timely disclosure of important information about a company's operations and financial performance. While no set of proxy

voting guidelines can anticipate all situations that may arise, the Adviser has adopted guidelines describing the Adviser's general philosophy when proposals involve certain matters. The following is a summary of those guidelines:

- electing a board of directors – a board should be composed primarily of independent directors, and key board committees should be entirely independent. The Adviser generally supports efforts to declassify boards or other measures that permit shareholders to remove a majority of directors at any time;
- approving independent auditors – the relationship between a company and its auditors should be limited primarily to the audit engagement;
- providing equity-based compensation plans - appropriately designed equity-based compensation plans, approved by shareholders, can be an effective way to align the interests of shareholders and the interests of directors, management, and employees by providing incentives to increase shareholder value. Conversely, the Adviser is opposed to plans that substantially dilute ownership interests in the company, provide participants with excessive awards, or have inherently objectionable structural features;
- corporate voting structure - shareholders should have voting power equal to their equity interest in the company and should be able to approve or reject changes to a company's by-laws by a simple majority vote. The Adviser opposes super-majority requirements and generally supports the ability of shareholders to cumulate their votes for the election of directors; and
- shareholder rights plans - shareholder rights plans, also known as poison pills, may tend to entrench current management, which the Adviser generally considers to have a negative impact on shareholder value.

MORE INFORMATION

The actual voting records relating to portfolio securities during the most recent 12-month period ended June 30 will be available after August 31 without charge, upon request by calling toll-free, (800) 595-2877 or by accessing the SEC's website at www.sec.gov. In addition, a copy of the Fund's proxy voting policies and procedures are also available by calling (800) 595-2877 and it will be sent within three business days of receipt of a request.
