

Mundoval Fund

ANNUAL REPORT

August 31, 2007

**Mundoval Fund
Annual Report
August 31, 2007**

Fellow Shareholders,

For the one year period ending August 31, 2007, the Mundoval Fund returned 18.81% versus 16.97% for the MSCI World Index. Since inception on September 3, 2004, the annualized rate of return for the Mundoval Fund has been 15.63% versus 16.53% for the MSCI World Index.

Assets under management in the fund as of August 31, 2007 are \$13.48 million. Since our last report in February we sold our positions in China Mobile, Colgate-Palmolive, Western Union, First Data and News Corporation because we believed their share prices fairly reflected their intrinsic business values. Proceeds from these sales were used to purchase shares of GlaxoSmithKline Plc, Novartis, Time Warner and Dow Chemical.

The fund's largest industry allocation is to the Health Care Sector (Astra Zeneca, Johnson & Johnson, GlaxoSmithKline, Sanofi Aventis and Pfizer). The Industrial (Illinois Tool Works, 3M Company, Ingersoll Rand, and BASF) and Information Technology Sectors (Cisco Systems, Dell Computer, Intel, Microsoft, Taiwan Semiconductor and Tyco International) are prominently represented as well. The fund owns shares of common stock in thirty six companies as of August 31, 2007.

Holdings that enhanced the investment performance of the fund during the previous six months include Cisco Systems, Tele Norte Leste, BASF, Dell Computer, Nestle and CNOOC Ltd. Holdings that impeded the investment performance of the fund during the previous six months include Sanofi Aventis, American International Group, Cemex, Citigroup, ING Groep, Pearson Plc and Taiwan Semiconductor.

At the Mundoval Fund Annual Meeting in August the Board of Trustees voted to change the fiscal year end of the fund from August 31 to December 31st. Shareholders will receive another Annual Report in early 2008 to reflect the change. The Mundoval Fund adheres to an investment philosophy that is based on value. Our patterns of operation will attempt to reduce the risk of permanent capital loss by purchasing common stock in businesses worldwide at prices that we believe are less than their intrinsic values. We seek to own businesses that are leaders in their industries with the ability to generate discretionary cash flows to enhance value for shareholders.

Thank you for your continued support & confidence.

Sincerely,

Arthur Q. Johnson, CFA

AVERAGE ANNUAL RATE OF RETURN (%) FOR PERIODS ENDED AUGUST 31, 2007.

August 31, 2007 NAV \$15.12

	1Year ^(A)	Since Inception ^(A)
Mundoval Fund	18.81%	15.63%
MSCI World Index ^(B)	16.97%	16.53%

^(A) 1 Year and Since Inception returns include change in share prices and in each case includes reinvestment of any dividends and capital gain distributions. The inception date of the Mundoval Fund was September 3, 2004.

^(B)The MSCI World Index is a free float-adjusted market capitalization index that is designed to measure global developed market equity performance in twenty-three countries in Europe, Australia, Asia, the Far East and North America.

PAST PERFORMANCE DOES NOT GUARANTEE FUTURE RESULTS. INVESTMENT RETURN AND PRINCIPAL VALUE WILL FLUCTUATE SO THAT SHARES, WHEN REDEEMED, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. RETURNS DO NOT REFLECT THE DEDUCTION OF TAXES THAT A SHAREHOLDER WOULD PAY ON FUND DISTRIBUTIONS OR THE REDEMPTION OF FUND SHARES. TO OBTAIN PERFORMANCE DATA CURRENT TO THE MOST RECENT MONTH END, PLEASE CALL 1-800-595-2877.

Mundoval Fund (Unaudited)

Mundoval Fund

by Industry Sectors (as a percentage of Net Assets)

*Net Cash represents cash equivalents and other assets less liabilities.

Availability of Quarterly Schedule of Investments (Unaudited)

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's Web site at <http://www.sec.gov>. The Fund's Forms N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

Proxy Voting Guidelines (Unaudited)

A.Q. Johnson & Co., Inc., the Fund's Adviser, is responsible for exercising the voting rights associated with the securities held by the Fund. A description of the policies and procedures used by the Adviser in fulfilling this responsibility is available without charge on the Fund's website at www.mundoval.com. It is also included in the Fund's Statement of Additional Information, which is available on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Information regarding how the Fund voted proxies, Form N-PX, relating to portfolio securities during the most recent 12-month period ended June 30th is available without charge, upon request, by calling our toll free number (1-800-595-2877). This information is also available on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Disclosure of Expenses (Unaudited)

Shareholders of this Fund incur ongoing expenses consisting solely of management fees. The following example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with similar costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested in the Fund on February 28, 2007 and held through August 31, 2007.

The first line of the table below provides information about actual account values and actual expenses. In order to estimate the expenses a shareholder paid during the period covered by this report, shareholders can divide their account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6) and then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses paid by a shareholder for the period. Shareholders may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in other funds' shareholder reports.

	Beginning Account Value February 28, 2007	Ending Account Value August 31, 2007	Expenses Paid During the Period* February 28, 2007 to August 31, 2007
Actual	\$1,000.00	\$1,111.80	\$7.98
Hypothetical (5% annual return before expenses)	\$1,000.00	\$1,017.64	\$7.63

* Expenses are equal to the Fund's annualized expense ratio of 1.50% for the period of February 28, 2007 to August 31, 2007, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

NOTES TO FINANCIAL STATEMENTS MUNDOVAL FUND

August 31, 2007

1.) ORGANIZATION

Mundoval Fund (the "Fund") is a non-diversified series of the Mundoval Funds (the "Trust"), an open-end management investment company. The Trust was organized in Ohio as a business trust on March 24, 2004 and may offer shares of beneficial interest in a number of separate series, each series representing a distinct fund with its own investment objectives and policies. The Fund commenced operations on September 3, 2004. The Fund's investment objective is long-term capital appreciation.

2.) SIGNIFICANT ACCOUNTING POLICIES

SECURITY VALUATION: Equity securities are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Adviser believes such prices accurately reflect the fair market value of such securities. Securities that are traded on any stock exchange or on the NASDAQ over-the-counter market are valued by the pricing service at the last quoted sale price. Lacking a last sale price, an equity security is valued by the pricing service at its last bid price. When market quotations are not readily available, when the Adviser determines that the market quotation of the price provided by the pricing service does not accurately reflect the current market value, or when restricted or illiquid securities are being valued, such securities are valued as determined in good faith by the Adviser, in conformity with guidelines adopted by and subject to review of the Board of Trustees of the Trust.

Fixed income securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Adviser believes such prices accurately reflect the fair market value of such securities. A pricing service utilizes electronic data processing techniques based on yield spreads relating to securities with similar characteristics to determine prices for normal institutional-size trading units of debt securities without regard to sale or bid prices. If the Adviser decides that a price provided by the pricing service does not accurately reflect the fair market value of the securities, when prices are not readily available from a pricing service or when restricted or illiquid securities are being valued, securities are valued at fair value as determined in good faith by the Adviser, in conformity with guidelines adopted by and subject to review of the Board of Trustees. Short term investments in fixed income securities with maturities of less than 60 days when acquired, or which subsequently are within 60 days of maturity, are valued by using the amortized cost method of valuation, which the Board of Trustees has determined will represent fair value.

In accordance with the Trust's good faith pricing guidelines, the Adviser is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. No single standard for determining fair value controls, since fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of securities being valued by the Adviser would appear to be the amount which the owner might reasonably expect to receive for them upon their current sale. Methods which are in accord with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods.

In September 2006, FASB issued Statement on Financial Accounting Standards (SFAS) No. 157 "Fair Value Measurements." This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosure about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The changes to current generally accepted accounting principles from the application of this Statement relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. As of August 31, 2007, the Fund does not believe that the adoption of SFAS No. 157 will impact the amounts reported in the financial statements; however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements reported on the statement of changes in net assets for a fiscal period.

FEDERAL INCOME TAXES: The Fund's policy is to continue to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code and to distrib-

Notes to the Financial Statements - continued

ute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 - Accounting for Uncertainty in Income Taxes, that requires the tax effects of certain tax positions to be recognized. These tax positions must meet a "more likely than not" standard that based on their technical merits, these positions have a more than 50 percent likelihood of being sustained upon examination. FASB Interpretation No. 48 is effective for fiscal periods beginning after December 15, 2006. At adoption, the financial statements must be adjusted to reflect only those tax positions that are more likely than not of being sustained. Management of the Fund is currently evaluating the impact that FASB Interpretation No. 48 will have on the Fund's financial statements.

DISTRIBUTIONS TO SHAREHOLDERS: Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expenses or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Fund. For distribution purposes, the Fund follows the U.S. Federal income tax theory of equalization, which treats a portion of the price of capital shares redeemed during the year as distributions from net investment income and realized capital gains. When this method is employed, a permanent difference between the character of net assets for book and federal income tax purposes arises, as explained above. On the Statement of Assets and Liabilities, the following adjustments were made for permanent differences attributable to equalization:

<u>Capital Paid In</u>	<u>Accumulated Net Investment Income</u>	<u>Accumulated Undistributed Realized Gain</u>
\$119,977	(\$18,866)	(\$101,111)

USE OF ESTIMATES: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

OTHER: Security transactions are recorded on the trade date. Dividend income is recorded on the ex-dividend date, and interest income is recognized on an accrual basis. Discounts and premiums on securities purchased are amortized over the lives of the respective securities. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and regulations.

3.) INVESTMENT ADVISORY AGREEMENT

The Fund has entered into an investment advisory agreement (the "Management Agreement") with A.Q. Johnson & Co., Inc. (the "Adviser"). Under the terms of the Management Agreement the Adviser manages the investment portfolio of the Fund, subject to policies adopted by the Trust's Board of Trustees. Under the Management Agreement, the Adviser, at its own expense and without reimbursement from the Trust, furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the assets of the Fund. The Adviser also pays the salaries and fees of all of its officers and employees that serve as officers and trustees of the Trust. The Adviser pays all operating expenses of the Fund with the exception of taxes, brokerage fees and commissions, borrowing costs (such as (a) interest and (b) dividend expenses on securities sold short), and extraordinary expenses. For its services, the Adviser receives an annual investment management fee from the Fund of 1.50% of the average daily net assets of the Fund. As a result of the above calculation, for the year ended August 31, 2007 the Adviser earned management fees totaling \$184,345, of which \$18,191 was payable to the Adviser as of August 31, 2007.

Arthur Q. Johnson is the control person of the Adviser and also serves as a trustee/officer of the Fund. This individual receives benefits from the Adviser resulting from management fees paid to the Adviser by the Fund.

Notes to the Financial Statements - continued

4.) APPROVAL OF INVESTMENT ADVISORY AGREEMENT (Unaudited)

On August 17, 2007, the Board of Trustees (the "Trustees" or the "Board") for the Mundoval Fund met to consider the renewal of the Management Agreement (the "Agreement"). In renewing the Agreement, the Board of Trustees considered and evaluated the following factors: (i) the investment performance of the Fund and the investment adviser; (ii) the nature, extent and quality of the services provided by the investment adviser to the Fund; (iii) the cost of the services provided and the profits realized by the adviser and its affiliates from the relationship with the Fund; (iv) the extent to which economies of scale will be realized as the fund grows; and (v) whether the fee levels reflect these economies of scale to the benefit of shareholders.

The Board met with Arthur Q. Johnson of the Adviser to discuss the terms of the Agreement. The Board reviewed the history of the Adviser, including background and investment management experience, as well as the Fund's performance for the last fiscal year, important factors relating to the Fund's performance, the Adviser's investment and research strategy, the Adviser's financial strength, and expected expenses and revenue from the Fund.

The Board gave careful consideration to factors deemed relevant to the Trust and the Fund as well as the nature, extent and quality of the services to be provided by the Adviser and the performance of the Fund since commencement of operations. The Trustees analyzed the Adviser's experience and the capabilities of the portfolio manager. The Trustees reviewed and discussed the Adviser's Form ADV, internal compliance policies and financials. The Board also compared the Fund's management fee and total annual operating expenses to those of comparable funds.

As to the performance of the Fund, the materials from the Adviser included information regarding the Fund's performance compared to a peer group of 22 funds. The Trustees noted that the Fund performed in the top range of its peers. It was noted that the Mundoval Fund was up 16.96% year-to-date through June 30, 2007, compared to 18.59% for the MSCI World Index. Additionally, the average 12 month total return was 21.45% for the peer group compared to 26.02% for the Mundoval Fund and 23.59% for the MSCI World Index. The Trustees also reviewed the performance of other accounts managed by the Adviser with a comparable mandate and noted that on a one-year basis the performance of the separate accounts were within 0.20% of the performance of the Fund.

As to the nature, extent and quality of the services provided by the Adviser, the Trustees analyzed the Adviser's experience and capabilities. The representatives of the Adviser summarized the information provided to the Board. The Trustees discussed the Adviser's financial condition, the portfolio manager's background and investment management experience. The representatives of the Adviser reviewed and discussed with the Board the Adviser's ADV and the 17j-1 certifications. Mr. Johnson walked the Board through the Adviser's Form ADV and discussed the Adviser's financial stability.

As to the cost of the services to be provided and the profits to be realized by the Adviser and its affiliates from the relationship with the Fund, it was noted that the Adviser is paying substantially all operating expenses of the Fund and that the Adviser's relationship with the Fund has resulted in a loss to the Adviser. Mr. Johnson also stated that in addition to advisory services, the Adviser also provides the Fund with officers, including the CCO, and office space. Turning to the level of the management fee, the Trustees were presented with a comparative analysis of advisory fees and expense ratios based on publicly available data and drawn from its peer group. Included in the comparison were funds with similar asset ranges. It was noted that while the Adviser's management fee was the highest in the peer group, the Adviser is responsible under the Agreement for paying all but a very small fraction of the Fund's expenses out of the management fee. Thus, the Trustees noted that the Fund's current expense ratio of 1.50% was less than the average expense ratio of 1.71% for the Peer Group. A.Q. Johnson also provides sub-advisory services to another fund for which it is paid 0.50%. However, the Adviser does not provide office space, a compliance officer and other services to the fund, nor does it pay all of the fund's expenses out of its sub-advisory fee. Finally, the Trustees reviewed information regarding fees charged by the Adviser for separate accounts. The Board noted that A.Q. Johnson is paid 1.00% for separate accounts management, but does not provide the same comprehensive level of services to separate accounts as is provided to the Fund. Having considered the comparative data as described above, the Trustees concluded that the management fee and expense ratio were reasonable.

As for potential economies of scale, the Trustees discussed and considered information regarding whether there have been economies of scale with respect to the management of the Fund, whether the Fund has appropriately benefited from any economies of scale, and whether there is potential for realization of any further economies of scale. The Trustees

Notes to the Financial Statements - continued

noted that the Adviser represented to the Board that the Adviser would consider including break points in the management fee as the Fund grows, thus benefiting shareholders.

After reviewing all the information presented, the non-interested Trustees met in executive session. The Trustees discussed the performance of the Fund and the Adviser's compensation. Based upon the information provided, the Board concluded that the fee to be paid to the Adviser pursuant to the Agreement was reasonable, that the overall arrangement provided under the terms of the Agreement was a reasonable business arrangement, and that the renewal of the Agreement was in the best interest of the Fund's shareholders.

5.) RELATED PARTY TRANSACTIONS

The Trustees who are not interested persons of the Fund were paid \$1,000 each in Trustees fees by the Adviser for the year ended August 31, 2007. Under the Management Agreement, the Adviser pays these fees.

6.) INVESTMENTS

For the year ended August 31, 2007, purchases and sales of investment securities other than U.S. Government obligations and short-term investments aggregated \$7,072,652 and \$2,796,991 respectively. There were no purchases or sales of U.S. Government obligations.

For federal income tax purposes, the cost of investments owned at August 31, 2007 was \$11,046,147. At August 31, 2007, the composition of unrealized appreciation (the excess of value over tax cost) and depreciation (the excess of tax cost over value) was as follows:

<u>Appreciation</u>	<u>(Depreciation)</u>	<u>Net Appreciation (Depreciation)</u>
\$2,506,477	(\$232,050)	\$2,274,427

7.) CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting shares of a fund creates a presumption of control of the Fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of August 31, 2007, Arthur Q. Johnson held, in aggregate, 44.22% of the Fund. Arthur Q. Johnson is the control person of the Adviser and also serves as a trustee/officer of the Fund.

8.) CAPITAL SHARES

At August 31, 2007 an unlimited number of shares of beneficial interest were authorized. 891,409 shares were issued and outstanding and paid in capital was \$10,329,705.

9.) DISTRIBUTIONS TO SHAREHOLDERS

There was a dividend of \$0.0825 per share from net investment income and a long-term capital gain distribution of \$0.1181 per share paid on December 27, 2006.

The tax character of distributions paid during the periods shown below were as follows:

Distributions paid from:

	<u>9/1/06 to 8/31/07</u>	<u>9/1/05 to 8/31/06</u>
Ordinary Income	\$ 64,674	\$ 41,609
Short-Term Capital Gain	-0-	-0-
Long-Term Capital Gain	<u>92,581</u>	<u>-0-</u>
	<u>\$ 157,255</u>	<u>\$ 41,609</u>

As of August 31, 2007, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income/(accumulated losses)	\$ 108,579
Undistributed long-term capital gain/(accumulated losses)	649,138
Unrealized appreciation/(depreciation)	<u>2,274,427</u>
	<u>\$ 3,032,144</u>

There were no differences between book and tax cost basis.

10.) SUBSEQUENT EVENT

Effective September 1, 2007, the Fund's Trustees elected to change the Fund's fiscal year end to December 31.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To The Shareholders and
Board of Trustees of Mundoval Fund

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Mundoval Fund as of August 31, 2007, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the three years in the period then ended. These financial statements and financial highlights are the responsibility of Fund management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of August 31, 2007 by correspondence with the Fund's custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Mundoval Fund as of August 31, 2007, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.
