INVESTMENT STRATEGY

The Mundoval Fund seeks long-term capital appreciation by investing in U.S. and international businesses.

The Fund's strategy focuses on value style investing by owning shares of companies believed to be trading at a discount to their intrinsic value.

DIFFERENTIATING FACTORS

- Portfolio Manager invested alongside clients.
- Long-term, multi-year investment horizon and low turnover of portfolio holdings.
- Consistent application of investment philosophy through market cycles.
- Conservative business valuation estimates that prioritize free cash flow generation.

²RISKS & IMPORTANT CONSIDERATIONS

Performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. All returns include change in share prices, and reinvestment of any dividends and capital gains distributions. Current performance may be lower or higher than the performance data quoted. Indices shown are broad-based, unmanaged indices commonly used to measure performance of U.S. and world stocks. These indices do not incur expenses and are not available for investment. You may obtain performance data current to the most recent month-end by calling the transfer agent at 1-877-59-FUNDS. You should consider the investment objectives, risks, and charges and expenses of the fund carefully before investing. The prospectus contains this and other information about the fund.
